I-Kone Oy

WE'RE HIGHLY SKILLED AND DEVELOPING ENGINEERING COMPANY FROM FINLAND. WE HAVE BEEN SUPPLYING PRODUCTS AND SOLUTIONS FOR INDUSTRIAL NEEDS FOR THREE DECADES.

With machines and equipment in line with our operations, we meet today's requirements and challenges. In machining works, you will be served by group of highly skilled team who are ready to share our professional know-how.

Our customers consist of our country's leading manufacturers of machinery and equipment, as well as industrial factories in various fields.

In addition to engineering works and parts manufacturing, we manufacture and sell the patented turning device we have developed for the maintenance of rock drilling rods for mineral quarries around the world.

After the expansion completed in 2004, we have 1,200 square meters of premises with 2 T and 10 T overhead cranes.
